Warszawa

## SUMMARY

I'm engineer who isn't glad with previous career as a HVAC systems designer and decided to change path of career. I don't have any commercial experience doing web apps or websites but I want to change it. I can make simple to-do apps, sliders, shopping carts etc. in Javascript. I have basic knowledge of using webpack, npm and node.js and git. I also used contentful and netlify. Now I'm learning React.js, next - Redux. In the future I see myself as a professional Front-End Developer / Full-Stack Developer, step by step I realize my plan. By joining your company, I'm committing to make myself and my job the best as I can.
